

## **HOUSING INFORMATION**

If you participate in a Serve Tour event in your city, your group may commute to the ministry project site, as housing will not be needed. For those teams in need of housing, you will receive an email with a list of potential accommodations after you have registered for a specific project. We will provide you with a list of hotels near ministry site locations. We have also partnered with potential host churches and are able to offer other free or reduced-price housing options to help meet your team's needs. If your group requires housing, please secure a location that fits your team's needs as soon as possible.
